Galatians 5:22-23

We long for God to move at the speed of light, but God moves at the speed of a seed.

Patience is best represented by our quads, which allow us to run our race with endurance.

If we truly want to understand patience we must think less like a runner and more like a farmer.

If grace is the seed that has been planted and heaven is the reward hoping for then what do we do while we wait?

Patience isn't just waiting, it is the ability to zoom out and see the larger picture.

Most of the time when we loose patience it is because we have lost sight of our purpose.

2 Corinthians 15-18
